

## Improvements to 2nd class change & Camilla's sealed skills quests

---

### Improvements to 2nd class change quests

- The 2nd class change quests have been made easier for all characters and the number of dungeons that need to be completed has been reduced. (Because the class change quests were looked at as a whole, the number can increase by adding side quests.)
- The drop rate for 2nd class change quest items is now at 100%.
- Changed the number of dungeons that are required to be completed to reach each quest level to 6 or less.

### Improvements to Camilla's sealed skills quests

- Improved Camilla's quests for receiving sealed beginner, advanced, professional and expert skills.
- The drop rate for the skill quest items has been changed to 100% so that the quests are easier to complete. (Excludes transcendence quests.)
- Some quest items that used to be dropped by mini bosses, are now dropped by bosses.
- The general amount of required quest items for these quests has been reduced.
