Improvements to Matching

- Higher ranked characters match quicker now.
- It is less likely for the player to play against the same enemies now.
- Matching time increased from 30 secs. to 60 secs.

Revised Stats

- Stats adapt based on rank. The higher the rank, the more it adapts.
(Reduced attack, increase HP.)
- The game duration increases based on the rank stats adaptation formula.
(Attack is divided by the rank stats, HP is multiplied by the rank stats.)
- Is used on all who lay PvP battles depending on their rank.
- Revised the formula for adjusting attack power and defence in official PvP.

Reduced resonance rate effect

- Only up to 40% of the Resonance Rate stats will be used in battle.

Reduced attributes effects of enchanted weapons

- [Poison]
Removed jump power reduction
Reduced the movement speed reduction per stack from 30%/45%/60% to 20%/30%/40%.
- [Ice]
Changed the duration based on level from 10/13/17/20 to 10 secs.
Reduced the defence reduction per stack from 20%/30%/45% to 10%/20%/30%.
Reduced the attack speed reduction per stack from 20%/30%/40% to 10%/20%/30%.
- [Greed]
MP absorption reduced from 6/12/18/24 to 4/6/8/10.

Increased Rank Reward

- Increased AP and EXP rewards for grades.
(The higher the grade, the greater the reward.)
- The reward for 1 win and 1 loss of high grade can be similar to 2 wins of low grade.

Selling new PvP Accessories

- There is a random effect and a set effect.
(The random effects increase in relation to rank.)
- Increased the maximum number of usable options from 2 to 3.
(The high random options are determined randomly.)
- Unused accessories can be dismantled or traded.
(Trade is possible after sealing. Dismantling produces 3 materials that can be traded for accessories.)
- Last season's PvP accessories are no longer sold.
