

Eldrit Resonance - 2nd Development Axis

- **What is the Eldrit Resonance Grade?**
- **System operating instructions**
- **Quest to enable the Eldrit Resonance Grade**
- **Relevant items**
- **Changes to the interface**
- **Resonance Grade window**

What is the Eldrit Resonance Grade?

1. The Eldrit Resonance Grade has an influence on all characters. The same applies for the effect.
 - However, the Resonance Grade is only available for characters from level 99 and up.
2. As soon as a character reaches level 99, the previous EXP system switches to the Eldrit Resonance Grade system.
3. Once the respective level reaches the peak value (100%), the Eldrit Resonance Grade increases by 1 and you receive 'Eldrit Resonance Points (ERP)'.
 - You can reach up to Resonance Grade 999 and the same number of points.
 - Investment and resetting of Eldrit Resonance Points is possible for all characters.

System operating instructions

1. You can use the standard shortcut (^) or press the corresponding button in the character window to display the special interface as a pop-up.

Quest to enable the Eldrit Resonance Grade

1. Quest start conditions
 - All characters for whom the Eldrit Resonance Grade isn't yet available.
2. Quest acceptance
 - Automatic acceptance per account
3. Quest contents

Relevant items

1. Writings on Eldrit Resonance

- The [Eldrit Resonance Grade] button is activated when you use this item.
- If a character for whom the button is already activated uses this item, a message will appear as a pop-up.

- Will be stored in the [Inventory - Material] tab. You can store 1 piece per slot.

2. Eldrit Resonance System

- Material item required for completing 'A new power! Eldrit Resonance!'.
- Will be stored in the [Inventory - Material] tab. You can store 1 piece per slot.
- Can be purchased from Aranka for 10,000,000 ED.

3. Eldrit Resonance Point Reset Coin

- An item required to reset invested Resonance Points; 1 coin resets 1 point.
- Will be stored in the [Inventory - Special] tab. You can store 100 pieces per slot.

4. Eldrit Resonance Point Reset Scroll

- An item required to reset invested Resonance Points; 1 scroll resets all points in any category.
- Will be stored in the [Inventory - Special] tab. You can store 30 pieces per slot.

Changes to the interface

When a character reaches level 99, the 'EXP bar' changes to 'Eldrit Resonance Grade'.

1. EXP bar on the main screen
2. EXP bar, top right, when completing a dungeon
3. Message about the EXP received
4. Main screen, between character level and character name
5. Character window, when viewing other characters, between level and character name

Resonance Grade window

1. Level

- Display up to maximum 999
- You level up every time the Resonance bar reached 100%.

2. Points that can be invested

- Display up to maximum 999

3. Resonance bar (=EXP)

- Increases either once you've reached level 99 or by doing activities that give you EXP.
- This resets to 0% when you reach 100%, at which point your level and Resonance Points increase by 1.

4. Category

- Effect and increase or decrease are displayed in the individual categories.

5. Invest/retrieve points

- Active if you have Resonance Points.
- Only applied once you confirm by pressing the OK button.

6. Number of points invested/Maximum number of points

- Displays the amount of points invested in the respective categories.
- You cannot invest more points than the maximum number of points.

7. Reset

- Using the Eldrit Resonance Point Reset Scroll retrieves all points in the current category (Body, Magic, Support).

8. Confirm

- All points that are invested or reset must be confirmed. A corresponding number of Eldrit Resonance Point Reset Coins are required to reset Eldrit Resonance Points.
